

# WINDSTONE PRODUCT SPECIFICATION

NO.:20050608

| DESCRIPTION                             | PARKING SENSOR |      |           |                 |                      |
|---|----------------|------|-----------|-----------------|----------------------|
| MODEL NO.                               | ALL MODELS     |      |           |                 |                      |
| POWER SUPPLY                            | DC 12V         |      |           |                 |                      |
| SECTION                                 | TEST POINT     | UNIT | NOR.      | LIMIT           | SAMPLE 1#            |
| 1. Power Supply Voltage                 |                | V    | 12        | 9-15.6          |                      |
| 2. Ultrasonic Frequency                 |                | KHz  | 40        |                 |                      |
| 3. Effective Detecting Distance         |                | m    | 0.3~2     | For RD008: 1.5m |                      |
| 4. Power Consumption                    |                | W    | 2         | 3               |                      |
| 5. Wireless Sensor transmitter distance |                | m    | 8         | 6               | For Wireless Version |
| 6. Operation Temperature                |                | C    | -30 ~ +70 |                 |                      |
| 7. Sensor Diameter                      |                | mm   | 22        | 21.5~22         |                      |
| 8. Alarm Volume (For RD008--No Display) |                | dB   | 83        |                 |                      |
| 8. Alarm Volume (For Display Version)   |                | dB   | 70        |                 |                      |
